

## Year 6: New World Way

Gonna take my plastic to the bin  
And Recycle til I got no more (x2)  
Got my picker in my hand  
Rubbish in the bag  
Gotta tell the man  
That pollution is bad

(repeat)

Ain't nobody doin' nothin' (x2)  
We're gonna have to do somethin' (x2)

### REPEAT CHORUS

We need this in our lives  
Or humans' gonna die  
We're singing you this song  
Don't you know what's going on?  
(repeat)

### REPEAT CHORUS

Pollution is bad, Global Warming is worse  
Leave the oil in the ground, we're trying to save the world  
Gonna sue Parliament til they make it right  
Gonna tell the world til they realise  
You can't eat money and you can't drink oil  
And you can't grow food if you got no soil  
This ain't no illusion it's a big mistake  
We can't wait to take away the waste

## Nursery: Mini Beast

The ants go marching one by one  
Hoorah hoorah  
The ants go marching one by one  
Hoorah hoorah  
The ants go marching one by one  
They cannot stop till their work is done  
When they'll all go marching down in the ground  
To go back to their home Stomp stomp stomp

The grasshopper jumps up two by two  
Hoorah hoorah  
The grasshopper jumps up two by two  
Hoorah hoorah  
The grasshopper jumps up two by two  
They cannot stop till their work is through  
When they'll all go jumping down to the grass  
To go back to their home Jump jump jump

The butterflies flutter by three by three  
Hoorah hoorah  
The butterflies flutter by three by three  
Hoorah hoorah  
The butterflies flutter by three by three  
They cannot stop work till it's time for tea  
When they'll all go fluttering down to the tree  
To go back to their home Flutter flutter flutter

The beetles scurry by four by four  
Hoorah hoorah  
The beetles scurry by four by four  
Hoorah hoorah  
The beetles scurry by four by four  
They cannot stop work till there's no more  
When they'll all go scurrying down in the rocks  
To go back to their home Scurry scurry scurry

The bees go buzzing five by five  
Hoorah hoorah  
The bees go buzzing five by five  
Hoorah hoorah  
The bees go buzzing five by five  
They cannot stop work till they'll built the hive  
When they'll all go buzzing down to the tree  
To go back to their home Buzz buzz buzz

The spiders crawl up six by six  
Hoorah hoorah  
The spiders crawl up six by six  
Hoorah hoorah  
The spiders crawl up six by six  
They cannot stop work till their web is fixed  
When they'll all go crawling down to the ground  
To go back to their home Creep creep creep

you drive it, just stop  
you fly it, just stop  
you cycling, keep going  
you walking, keep going  
our home we're losing, c'mon let's keep it  
the ice is melting, c'mon let's freeze it  
it's dying, let's save it x4  
you like the weather, gee thanks – it's nature  
you see it, you know it, it's dying, then save it  
11 years left to solve it  
That's the way they have told it  
Magnetic car is the future  
We gotta make them unfold it  
Before the years pass  
No more time to rehearse  
Our useless actions  
Can't be reversed  
Plant goes from seed to the shoot!  
Planet needs time to reboot.  
Grow from the root.  
Action is led by the youth.  
People are following suit.  
Look at the world, look at the words  
Look at the youth we wanna be heard  
Look at the planet, it's starting to burn  
A better future is what we deserve  
you drop it, you clean it x4  
you like the weather, gee thanks – it's nature  
you see it, you know it, it's dying, it's GONE

## Year 5: 11 Years

We like the cars but we hate the pollution  
why can't we use a magnetic solution  
cars and the fuels are polluting the air  
all of the humans just don't really care  
working together makes everything better  
haven't you heard of a hero called Greta  
making great speeches about climate change  
some people call her a little bit strange  
you drop it, you clean it  
you drop it, you clean it  
we need a tactic, collect the plastic  
you like the weather, gee thanks – it's nature  
you see it, you know it, it's dying, then save it  
it's dying, then save it x4  
you like the weather, gee thanks – it's nature  
you see it, you know it, it's dying, then save it  
I like the trees and I hate the pollution  
deforestation is not the solution  
blossoms and flowers are sprouting in Spring  
fish are all swallowing our plastic things  
innocent trees getting cut down for paper  
ignorant adults leave action for later  
youth on the protests to stop you polluting  
boy I do hope that my planet stops hurting  
you drive it, just stop  
you fly it, just stop  
you cycling, keep going  
you walking, keep going  
our home we're losing, c'mon let's keep it  
the ice is melting, c'mon let's freeze it  
it's dying, let's save it x4  
you like the weather, gee thanks – it's nature  
you see it, you know it, it's dying, then save it

A-wimoweh!

## Year 1: The Eco Body

These are my Eyes, to see everywhere , yo-ho-hoho  
This is my Skull, to protect my brain ...  
This is my Heart it beats like this  
...Voice, it sounds like this  
...Throat, to swallow my food  
Belly, where all the food goes  
Spine, up and down  
Bones, to run and walk  
Skin , to hold it all in  
Hair, all over my chin  
This was my song, it went like this, yo-ho-hoho

## Year 2: Rock Pool

Tide came in this morning

Tide went out again

So in the rock pool I remain.

When the tide comes in this evening

It's gonna take me away

So I'm in the rock pool all the day.

CHORUS

I'm in the rock pool (x3)

All day long

I'm in the rock pool (x3)

Singing this song.

Limpets, mussels and abalones

They all love to sing along

And sea stars love to solo

In the rock pool song.

Snails and tube worms take it slow

Nudibranchs go with the flow

Sponges soak up the action

In the rock pool show.

Red and brown and green algae

Sea grass and anemones

You're a friend to the end

In the rock pool, baby!

REPEAT CHORUS

## Year 3: Burn it to the Ground

One of the so-called 'Jewels of the Earth' 4 layers of eco-system

10% of all living things; 10 minutes from tree-top to floor

20% of world's oxygen; 150 species of spider 1400 species of butterfly

More than 3000 species of fish 3800 species of bird

40,000 species of plant; 2.5 million species of insect

5.5 million kilometres squared 30 million insects are there

## Year 4: Strike Back!

I like tricity – (I like tricity) x2

Strike back-tricity – (Strike back-tricity) x2

Lightning - (Frightening) x2

The tower of power – (the tower of power)

Lightning - (Frightening) x2

The tower of power – (the tower of power)

Lightning from my heart – (We've got to make a start) x2

Before we tear the world apart x3

Totally wired – (totally weird) x4

Energy – (synergy) x8

Energy – (From the turbine)

Energy – (From the sunshine)

Energy – (From the ocean)

Energy - (From the earth)

[repeat this section]

Before we tear the world apart x3

Strike back – (take your life back) x6

Strike Back!
