1.What do you most like about your school?

Very easy to reach the staff. Any problems has been sorted out straight away. My child loves school

I like when teacher teaching one to one

I like the teachers how they respect the children and the parents and support them

Teachers, environment and class seating

The respect the teachers give us

A good school who is working hard to improve

Everything is good

Is a big family, stuff is very good

He can learn something and he really enjoys playtime and playing with his friends

Communication between teachers and parents. Learning program progress

It helps my daughter to be independent

I like that my children are happy in the school and I like to be there. I like the staff because they are helpful

Playing with my friends

The school manage well. Teaching is good.

I like the school ethos, and how the children are brought up to understand them and live by them. It is obvious that there is a very good and close relationship between teachers and students. I like the support offered to a lot of children who need it along with their families, and I have noticed a huge improvement in a lot of children including my daughter. I like the variety of after school activities.

Provides good education and support for children and children feel safe here. The school is led and managed well

Teachers, playing with friends and writing

Teachers, friends and singing time

Friendly atmosphere , learning process

The good communication with parents. The school is well managed. Thank you to all the team

I like how the teachers explain everything to make it simple

I like very much the spirit of help, cooperation and listening to the views of parents

Easy to travel to

Cultures, activities, especially visits to museums

The progress my child is showing is the effort the school put in in the academic achievement of my child

The school is well led and managed

My child has evolved a lot since he's in this school

I like everything

Mult-cultural. It has a high level of academic teaching and focused approach to individual needs of each child. There is an obvious culture of impeccable manners throughout the school

The way the teachers help

The fairness, the respect of equality and british values
The safety of the child and the way they protect them. The learning method. Discipline provided and into ??
We like the teachers, the majority of the staff and atmosphere in the school
Comfortable atmosphere and qualified teaching
More teacher and staff and cheap after school clubs please
The adults encourage me to do my best
Trips, teachers and fundraisers and lessons and maths
Improvement in the uniforms and the structure in the morning when the children line up.

2. What would you like to change about your school?

Hopefully we will have a permanent teacher in the class
Make the students play athletics
I will change the trips because the children need some rest and fun. They only went to museum. I would suggest more trips to different places
The parent meetings to keep the parnets informed about their children
Encourage all children who are struggling with confidence by choosing them to perform rather than the usual selection of kids
Nothing
Keep the same teacher and don't change them every year
communication with parents via an email system or face to face. There also needs to
be more control over theft in school
Nothing in particular but will be great if summer holiday starts earlier than 20th July.
The rules
I will love if they don't change the teacher often and keep the same one so I can know how my child is doing in their study
Nothing
I am not sure about other parents as heard compplaints from some about too much homework. I personally would appreciate it if teachers could give us parents
some extra resources to support our children's learning at home in line with the work they do at school
Involve parents more in activities with children
I would not change anything, everything is fine
Nothing
Nothing
More activities about Art
More reading "after school activities"
Maybe more music club after school
Nothing
Nothing
Nothing
The subjects they teach at the school and the playground and the timetable

Maybe I would wish for the after school clubs to run a little longer

I do not think really we need to make any change but in my opinion I think ?????

I think nothing

To make activity clubs for Nursery and Reception

Want the kids to have more facility please thanks

More adults coming in and out of the classroom for more help for the child.

The amount of computing time we have. The length of breaks. The school dinners

To be able to challenge those with above average learning i.e harder work
