

BLOG 3 DAY 3

Sunday 19th January 2020

This morning we woke up at 6:30 and we went to milk the goats. We gave them fresh water and food. Group B went for a little walk around the coast. For breakfast we had cereal and toast. After this some of us went to muck out the stables and groomed the donkeys. We then had lunch of all different kinds of sandwiches. We got to choose our fillings such as tuna or jam.

Following lunch, in the afternoon we went for a long coastal walk and had beautiful, refreshing views of the ocean. We were relaxing every few minutes so we could rest and keep a good pace. After the long, relaxing coast walk group b fed the pigs and after we fed all of the poultry. Group A went to feed the rams and we learnt some interesting things about sheep. We saw lambs which were born this morning with their umbilical cords which will drop off in a few weeks. Sheep are very intelligent too and have a good sense of smell, which is how they know which their lamb is. Since it is Sunday, we enjoyed a roast beef dinner with pudding of flapjack.

Tonight we have been stargazing and saw Orion's Belt. Some of us are getting stuck into monopoly! Miss Kennedy read a silly story by David Walliams which was very funny.
