

## DAY 4, 29.02.24, from LOWER TREGINNIS, WALES

Welcome to our extraordinary Wales blog In Wales, we went to an amazing farm called Treginnis.

Before breakfast, we did pigs and chickens. We held baby chickens and we had to feed hens and cockerels. We also had the job to feed the pigs named Nutmeg, Fred and Orchard For breakfast we had scrambled eggs, bacon and pancakes. It was delicious. After that, we did some fun tasks. First we fed the goats with straw and we learnt about them. When they have babies (we call them kids), we can not milk them. It will take about 5 months for the baby to be born. Then we had lunch. We were very hungry and finished everything. We enjoyed some minutes of free time. Some of us played football, some UNO and others danced.

For lunch, we had cawl (lamb stew). It's a traditional stew in Wales. After lunch, we went to the beach. On the beach, there were colourful rocks at the exit. There was seaweed everywhere on the floor and lots of rocks which mean, crabs! I (lymar) caught 4 crabs, 2 of the same breed, a pregnant one (she was really protective) and a baby crab. There were shark eggs and i'm not sure why but it's rectangular. We were lucky since the tide was low and finally it was sunny. Leading to the sea, there was a stream which amazingly was fast. The rocks in between the end were sticking out so if you sat on the rock, you'd have a nice sound of water flowing. This is our last night here and we hope you enjoyed reading our blog.
